BUILDING A NEST

Tui's, it's spring time, so we need to build our nests!

You will need:

Twigs

Dirt

Leaves.

Firstly, arrange the twigs to make a circle shape.

Let's sit inside, is it good? Oh not yet!

The twigs are good but there are lots of little gaps in it.

So fill in the holes of the nest with the dirt.

Let's sit in it again. Oh no, now it's too uncomfortable!

Hmm, if we want to make it soft, the soft leaves will be perfect! Let's add them inside the nest.

Let's try it again. Ahhh, it's the best nest ever!

Have a restful sleep Tui's!
